Diet Plan	Balanced Diet - NV

Dear Vedamsh,

I hope you are super excited to follow your Diet Journey with our team!

Based on your preference we have created a Balanced Diet. In this diet, you will be consuming 221g of carbohydrates, 81g of Protein, and 49g of Fat.

Use the **Live Fit Life** Application to track your macros and calories intake. Calculating the ingredients will help you to stick to the diet plan.

The first 10 days of your diet period will be considered as an observation period. It is very common to face some challenges to follow the diet in the initial period, such as mild headache, low in energy, puking, all because of the change in your body. However if you feel any abnormal symptoms like diarrhoea, allergic, fainting, Kindly inform us immediately to analyse your body.

Weight Management: Please share your weight update, The information can be transferred via the trainer during the session, which helps us to keep a track.

While Being on diet it is important to intake Micronutrients supplements to keep our internal functionality healthy. So kindly take the below supplements.

1. **Multivitamin - After Breakfast**
2. **Shelcal (Calcium + Vitamin D3) - After Lunch**
3. **Omega 3 (1000 to 1500mg) - after Dinner.**

(NOTE - better not to continue supplements more than 3 months without blood test)

Kindly go through the diet and In case of any queries related to diet, you can message us on our support group or drop a mail to nutrition@livefitlife.in.

Do's & Don'ts:

- Aim to drink 3 – 4 litres of water in a day. Keep yourself hydrating.
- Make sure you weigh all your foods with a kitchen weighing scale.
- Macros calculations are important to be followed to achieve your goal.
- Your Mealtime is not super mandatory, following a regular time can help you avoid a starvation state. Intake all the mentioned macros quantity within that day.
- Do not sauté or deep fry the food, avoid processed, artificial foods. (canned, ketchup, sauces)
- **Note: For a diet, reduce your salt intake than the usual (Preferably less than 2-3g or 1 tsp/day).**
- Take any mentioned meal or snacks for every 3 hours. Feeding healthy nutrition for every 2.5 – 3 hours will keep your body in an anabolic state throughout the day.
- Keep us updated with your weight progress twice in a week to monitor your progression. We will have to change the diet if required.
