## CUSTOMIZED DIET PLAN

Name	Muthu Karupasamy
LFL-ID	LPC1116
Age	47
Weight	80
Height	160
Body fat	30%
BMR (With Body Mass)	1570
BMR (With Lean Mass)	1330
TDEE	2061.5
Target Calories	1350
Goal	FAT LOSS
Country	India
Diet Plan	LCD NV

**Dear Muthu,**

I hope you are doing well. You have been following your previously recommended diet for quite some time and you were progressing well, now we figured out that your weight has been stabilised and it's time to change the diet to see better progression. Based on your preference we have created a Low Carbohydrate Diet.

In this diet, you will be consuming 113 g of carbohydrates 95g of Protein and 50.1g of fat

Kindly Use the **Live Fit Life** Application to track your macros and calories intake. Calculating the ingredients will help you to stick to the diet plan.

**Weight Management:** Please share your weight update, The information can be transferred via the trainer during the session, which helps us to keep a track.

**While Being on a diet it is important to intake Micronutrients supplements to keep our internal functionality healthy. So kindly take the below supplements.**

Name	Suggested Brand	Dosage	Time to be taken and Duration
Multi vitamin	A to Z OR Zincovit OR Nutrilite	1 Tablet / Day	After Breakfast for next 25 days
Shelcal (Calcium + Vitamin D3)	Shelcal M	1 Tablet / Day	After Lunch for next 25 days
Omega 3	HealthKart HK Vitals OR Neuherbs OR Wow Life Science	(1000 to 1500mg) - 1 tablet / day	Before bed time (Night) for next 25 days

#### **Do's & Don'ts:**

- Aim to drink 3 – 4 liters of water in a day. Keep yourself hydrating.
- Make sure you weigh all your foods with a kitchen weighing scale.
- Macros calculations are important to be followed to achieve your goal.
- Your Mealtime is not super mandatory, following a regular time can help you avoid a starvation state. Intake all the mentioned macros quantity within that day.
- Do not sauté or deep fry the food, avoid processed, artificial foods. (canned, ketchup, sauces)
- **Note: For a diet, reduce your salt intake than the usual (Preferably less than 2-3g or 1 tsp/day).**
- Take any mentioned meal or snacks for every 3 hours. Feeding healthy nutrition for every 2.5 – 3 hours will keep your body in an anabolic state throughout the day.
- Keep us updated with your weight progress twice in a week to monitor your progression. We will have to change the diet if required.

## General Dietary Guidelines

- Start your day with one or two glasses of water. Also, drink water throughout the day.
- Timing used as generic, please have the meal in your timing accordingly.
- You can swap food at different times as per your convenience, but all the food should have been taken before the end of the day.
- You can replace protein for protein, fat for fat, do not replace or swap both. Please check with me before you do.
- If you want to replace ingredients, the given alternatives only take.
- Have small meals frequently and regularly. The aim is to never let yourself be excessively hungry.
- Be it having healthy snacks, try to eat more frequently.
- Plan your food if you are traveling out, maintaining this diet as 100% is the mandatory criterion.
- Cut back on restaurant eating, prefer homemade foods.
- Don't super-size your meals. Practice portion control.
- Input a new recipe (with given ingredients only) and always weigh it out. Keep track using an app like 'Live Fit Life'.
- If any difficulties/allergies/health issues kindly let us know as soon as possible.
- Follow your regular exercise routine/as per schedule.

A well-balanced diet is always for weight loss but it can also be a way to retain overall health and have great skin and hair.
