Body fat	36%
BMR	1369
BMR	1127
TDEE	1746.85
Target Calories	1500
Goal	Fat Loss
Country	India
Diet Plan	LCD - NV

***Dear Shankari,***

I hope you are super excited to follow your Diet Journey with our team!

Based on your preference we have created a non veg - Low Carbohydrate Diet. In this diet, you will be consuming 150g of carbohydrates, 81g of Protein, and 54.8g of Fat.

Use the **Live Fit Life** Application to track your macros and calories intake. Calculating the ingredients will help you to stick to the diet plan.

---

The first 10 days of your diet period will be considered as an observation period. It is very common to face some challenges to follow the diet in the initial period, such as mild headache, low in energy, puking, all because of the change in your body. However if you feel any abnormal symptoms like diarrhoea, allergic, fainting, Kindly inform us immediately to analyse your body.

**Weight Management:** Please share your weight update, The information can be transferred via the trainer during the session, which helps us to keep track.

**Do's & Don'ts:**

- Aim to drink 3 – 4 liters of water in a day. Keep yourself hydrating.
- Make sure you weigh all your foods with a kitchen weighing scale.
- Macros calculations are important to be followed to achieve your goal.
- Your Mealtimes are not super mandatory, following a regular time can help you avoid a starvation state. Intake all the mentioned macros quantity within that day.
- Do not sauté or deep fry the food, avoid processed, artificial foods. (canned, ketchup, sauces)
- **Note: For a diet, reduce your salt intake than the usual (Preferably less than 2-3g or 1 tsp/day).**
- Take any mentioned meal or snacks for every 3 hours. Feeding healthy nutrition for every 2.5 – 3 hours will keep your body in an anabolic state throughout the day.
- Keep us updated with your weight progress twice in a week to monitor your progression. We will have to change the diet if required.

---

## General Dietary Guidelines

- Start your day with one or two glasses of water. Also, drink water throughout the day.
- Timing used as generic, please have the meal in your timing accordingly.
- You can swap food at different times as per your convenience, but all the food should have been taken before the end of the day.
- You can replace protein for protein, fat for fat, do not replace or swap both. Please check with me before you do.
- If you want to replace ingredients, the given alternatives only take.
- Have small meals frequently and regularly. The aim is to never let yourself be excessively hungry.
- Be it having healthy snacks, try to eat more frequently.
- Plan your food if you are traveling out, maintaining this diet as 100% is the mandatory criterion.
- Cut back on restaurant eating, prefer homemade foods.
- Don't super-size your meals. Practice portion control.
- Input a new recipe (with given ingredients only) and always weigh it out. Keep track using an app like 'Live Fit Life'.
- If any difficulties/allergies/health issues kindly let us know as soon as possible.
- Follow your regular exercise routine/as per schedule.

A well-balanced diet is always for weight loss but it can also be a way to retain overall health and have great skin and hair.

**The Food and supplements mentioned in the diet chart or in any other document are only suggestions to improve your health in a better way to reach your goals. We are providing the best suggestions based on scientific research on human body functionality with regards to nutrition & supplement.**
